CONNECTING GLOBAL HEALTHCARE

Trusted **medical exports**, delivered worldwide

Manshav Impex is a global healthcare export company built on trust. Since **2019**, we have connected India's advanced medical manufacturing network with buyers across the world — supplying premium medical devices, surgical consumables, orthopaedic products and healthcare solutions to importers, distributors, hospitals and governments worldwide.

Our surgical blades — the focus of this catalogue — are one of our flagship lines: ultra-sharp, sterile and manufactured to international standards, delivered with the reliability our partners depend on.

Why Choose Manshav Impex

- ◆ **International Quality** — CE, FDA, ISO & GMP-aligned.
- ◆ **Fast Documentation** — 24-hour turnaround.
- ◆ **OEM & Private Label** — full custom branding.
- ◆ **Reliable Supply Chain** — 120+ vetted partners.
- ◆ **Factory-Gate Pricing** — competitive & transparent.
- ◆ **Global Shipping** — by sea, air & courier.

& Growing

Representative markets shown. New distributor partnerships opening across all regions — **become a distributor** at manshavimpex.com.

Full export support: CE / FDA / ISO / GMP-aligned documentation, private-label manufacturing, and global shipping by sea, air & courier — with a dedicated export team and single point of contact.

BEYOND SURGICAL BLADES

Our Complete Product Range

Surgical blades are one line within our full medical export portfolio. We supply export-ready healthcare products across six core categories — all shipped with full certification and export documentation.

900+
EXPORT-
READY
PRODUCTS

Surgical Consumables **FLAGSHIP**

Surgical blades & handles, sutures, syringes, needles, gloves and dressings.

Orthopedic Products

Implants, bone plates, screws, external fixators and trauma systems.

Hospital Furniture

Hospital beds, stretchers, examination tables and instrument trolleys.

Diagnostic Products

Patient monitors, analyzers, rapid test kits and diagnostic instruments.

Medical Devices

Electrosurgical, anaesthesia, infusion and respiratory equipment.

Rehabilitation Products

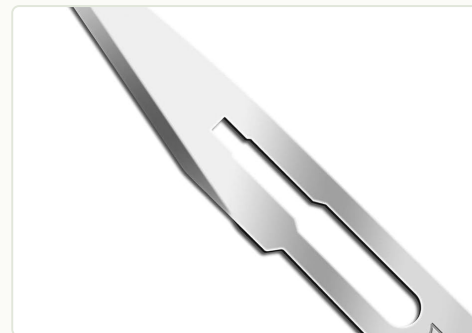

Wheelchairs, mobility aids, orthopaedic supports and braces.

One partner, complete sourcing. Consolidate your medical imports through a single trusted exporter — with OEM & private-label options, transparent factory-gate pricing and 24-hour documentation. Request the full product list at [manshavimpex.com](https://www.manshavimpex.com).

THE COLLECTION

Our Surgical Blade Range

All blades manufactured to **ISO 7740** standards — ultra-sharp, sterile, individually foil-packed and ready for immediate use. Available in **carbon steel** and **stainless steel**, in standard or custom OEM packaging.

No. 10

General Surgery

Curved cutting edge for skin & general soft-tissue incisions.

FITS HANDLE NO. 3

No. 11

Ophthalmic / Fine Work

Straight pointed / triangular tip for precise stab incisions.

FITS HANDLE NO. 3

No. 12

ENT / Oral Surgery

Crescent hooked blade for suture removal & angled cuts.

FITS HANDLE NO. 3

No. 15

Plastic / Dermatology

Small curved edge for short, precise & paediatric incisions.

FITS HANDLE NO. 3

No. 20

Orthopaedic

Large curved edge for large-field & deep incisions.

FITS HANDLE NO. 4

No. 21

General / Cardiovascular

Large belly blade for firm, controlled long incisions.

FITS HANDLE NO. 4

No. 22

Abdominal Surgery

Broad curved blade for large abdominal & body-wall incisions.

FITS HANDLE NO. 4

No. 23

Veterinary / Large Field

Deep-bellied curved blade for large-field & veterinary use.

FITS HANDLE NO. 4

No. 24

General / Obstetrics

Curved general-purpose blade for obstetric & wide incisions.

FITS HANDLE NO. 4

Standard packaging: Box of 100 blades — each blade sealed in an individual sterile foil pouch. **Handles:** No. 3 & No. 4 surgical handles available separately. **Custom OEM blade numbers, packaging & branding available on request.**

QUICK REFERENCE

Blade Colour-Code Chart

Every Manshav blade size carries a dedicated identification colour on its foil pouch and dispenser box — enabling fast, error-free selection in theatre and simple stock management for distributors.

BLADE	IDENTIFICATION COLOUR	SHAPE	PRIMARY APPLICATION	HANDLE FITMENT
No. 10	 BLUE	Curved edge	General surgery, skin incisions	No. 3
No. 11	 YELLOW	Pointed / triangular	Fine incisions, ophthalmic, stab cuts	No. 3
No. 12	 GREEN	Crescent / hooked	ENT, oral surgery, suture removal	No. 3
No. 15	 ORANGE	Small curved	Plastic, dermatology, paediatric	No. 3
No. 20	 PURPLE	Large curved	Orthopaedic, large incisions	No. 4
No. 21	 TEAL	Large belly	General, cardiovascular	No. 4
No. 22	 RED	Broad curved	Abdominal surgery	No. 4
No. 23	 BROWN	Deep-bellied curved	Veterinary, large field	No. 4
No. 24	 MAGENTA	Curved	General, obstetrics	No. 4

HOW THE COLOUR CODE WORKS

Each blade size is packed in a foil pouch printed in its identification colour, and grouped into a matching colour-banded dispenser box of **100 blades**. Staff can identify the correct blade at a glance — reducing selection error in high-pressure surgical environments.

HANDLE COMPATIBILITY

Blades **No. 10–15** mount on the **No. 3 handle**; blades **No. 20–24** mount on the **No. 4 handle**. Custom colour schemes and private-label pouch printing are available for OEM & distributor partners on request.

ENGINEERED FOR EXCELLENCE

Precision you can **rely on**

Every Manshav blade is the result of decades of metallurgical expertise and uncompromising quality control — from raw steel to final sterile pouch.

Ultra-Sharp Edge

Diamond-honed single-bevel cutting edge for smooth, precise incisions with minimal tissue trauma.

Medical Grade Steel

Premium surgical carbon & 420-grade stainless steel — corrosion-resistant, durable and consistent.

EO Sterilized

Each blade individually sterilized with Ethylene Oxide to eliminate any risk of contamination.

Consistent Geometry

Laser-verified blade geometry ensures uniform performance across every single production batch.

Biocompatible

Fully compliant with ISO 10993 biocompatibility standards for safe human-tissue contact.

CE & ISO Certified

Meets CE Mark (EU), ISO 7740 and ISO 13485 international quality management certifications.
